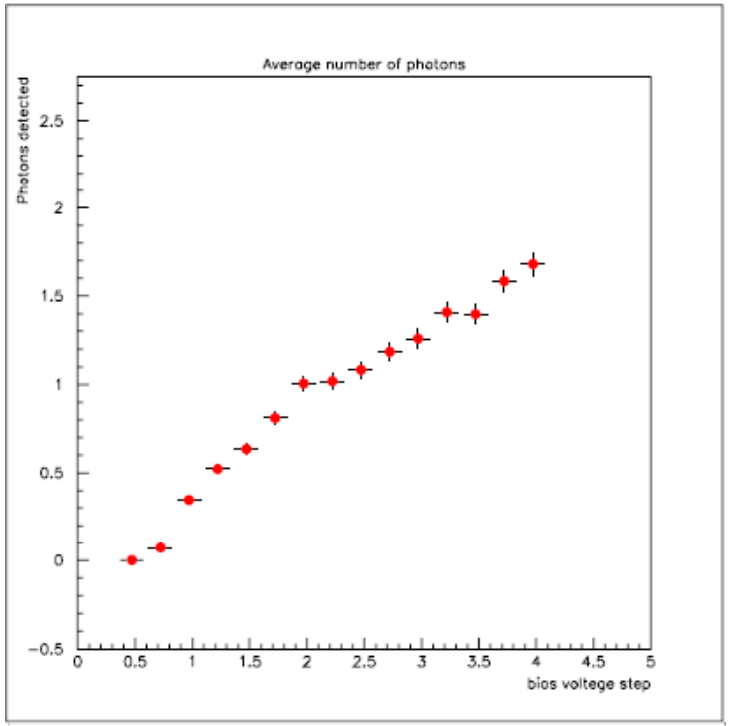
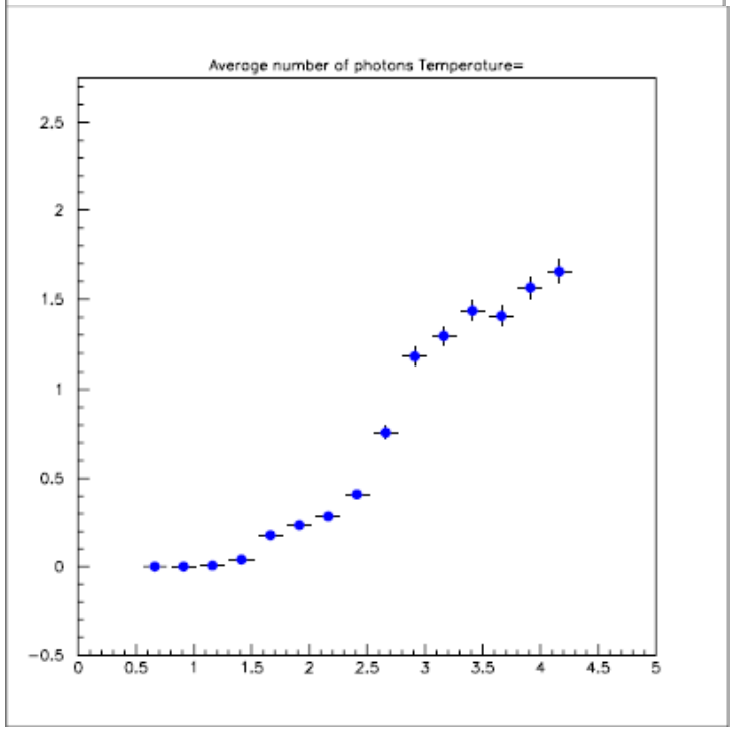
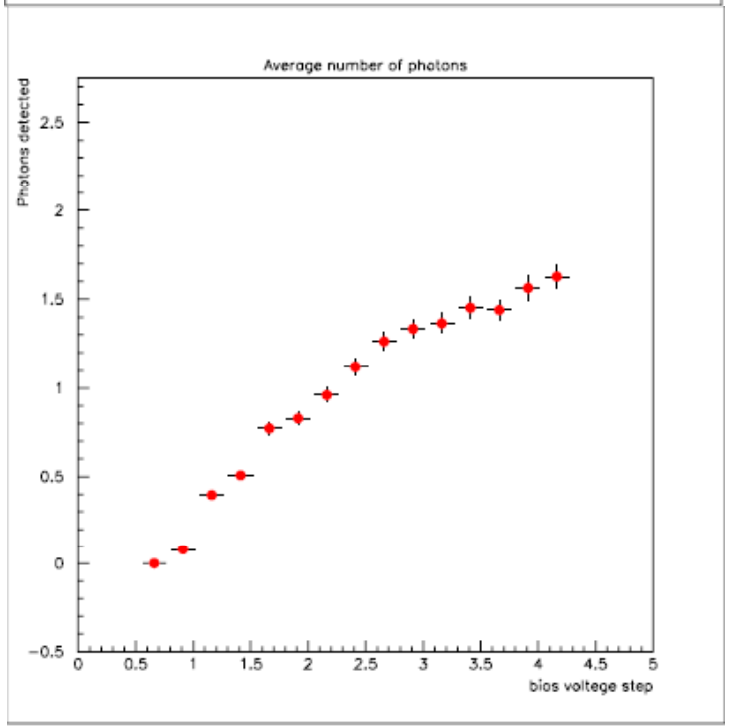
Average number of photons Temperature=



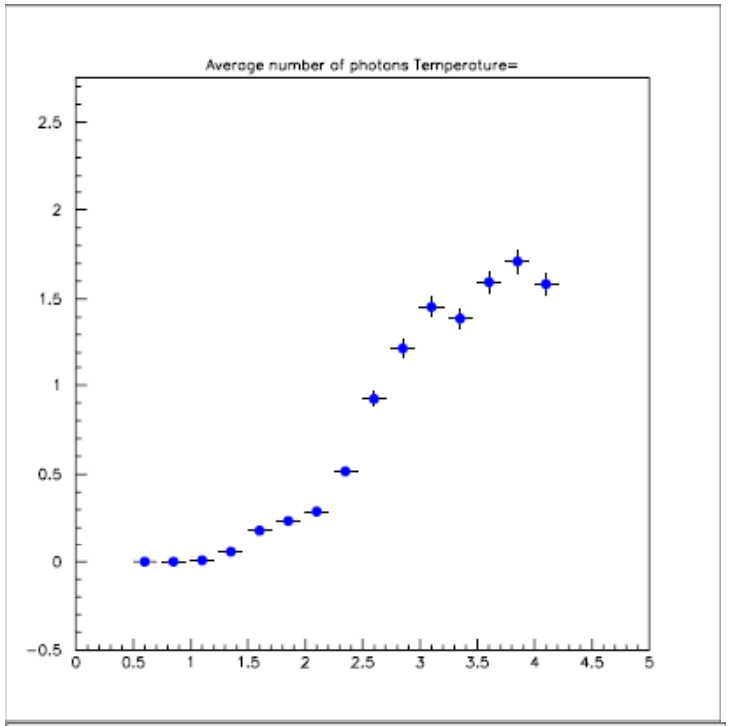
Average number of photons
Photons detected
bias voltage step



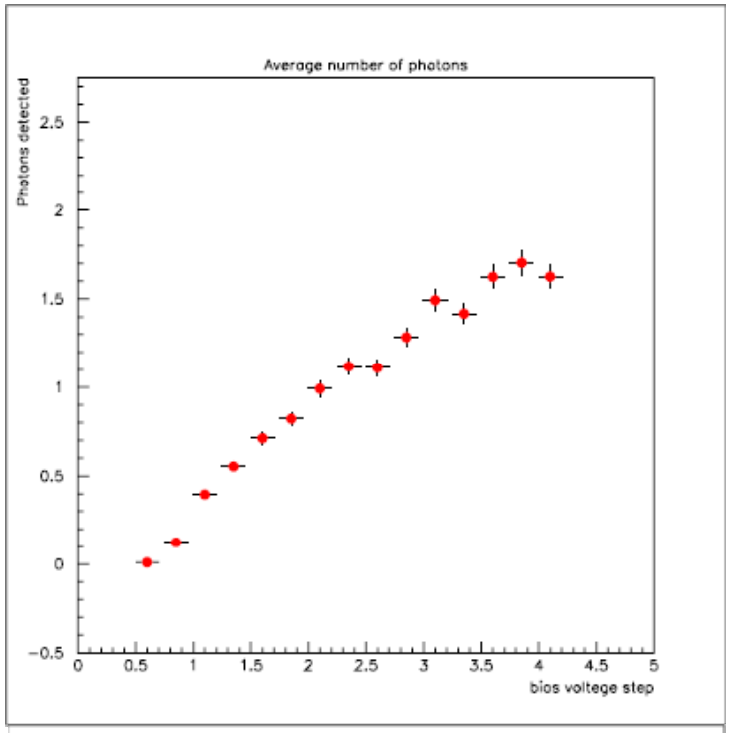
Average number of photons Temperature=



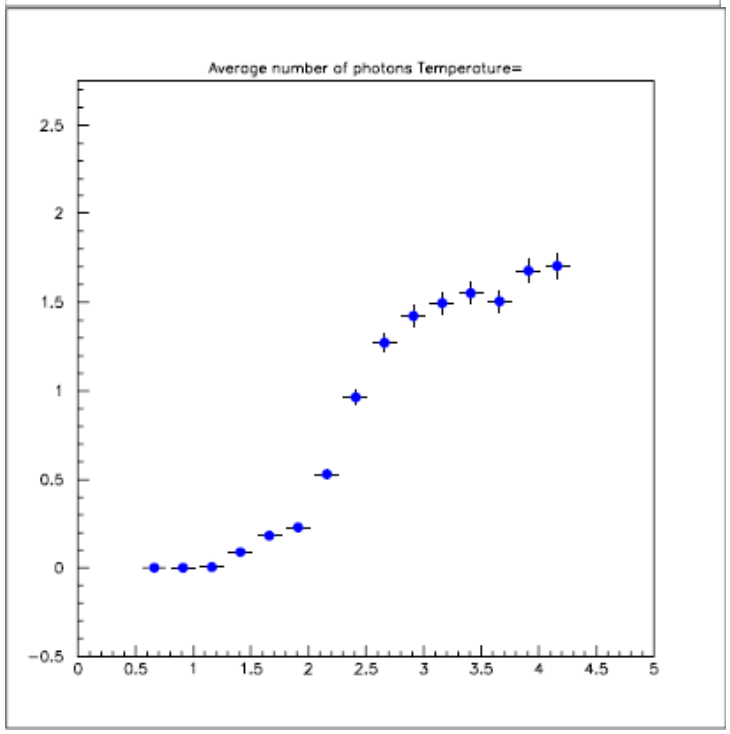
Average number of photons
Photons detected
bias voltage step



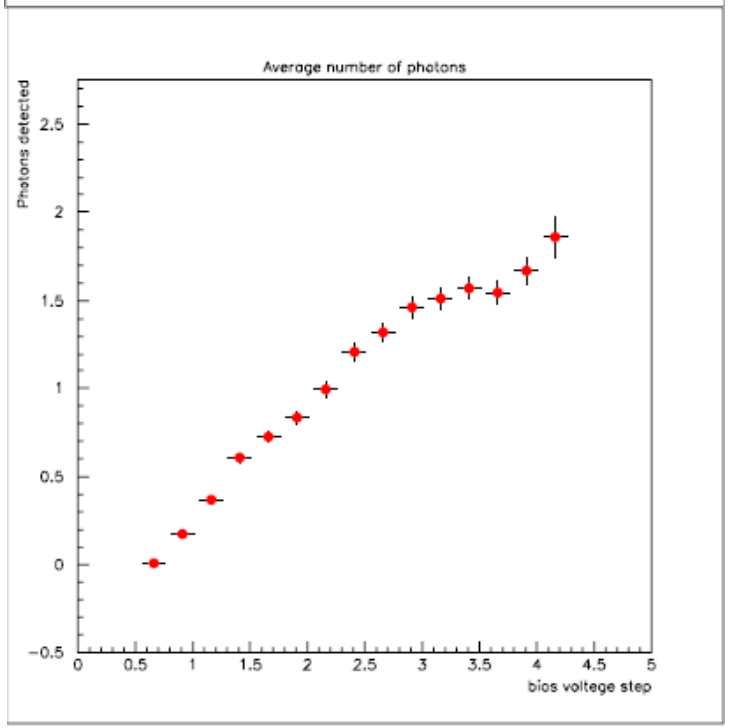
Average number of photons Temperature=



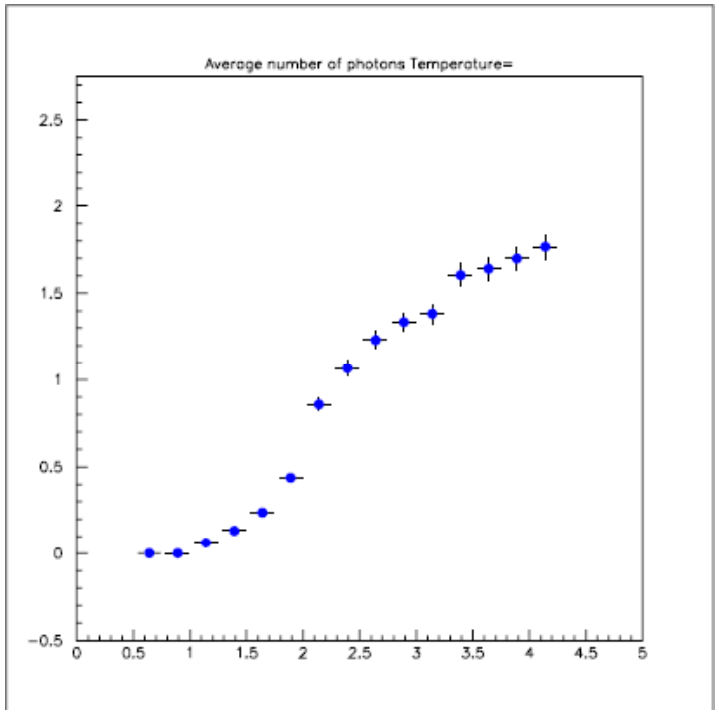
Average number of photons
Photons detected
bias voltege step



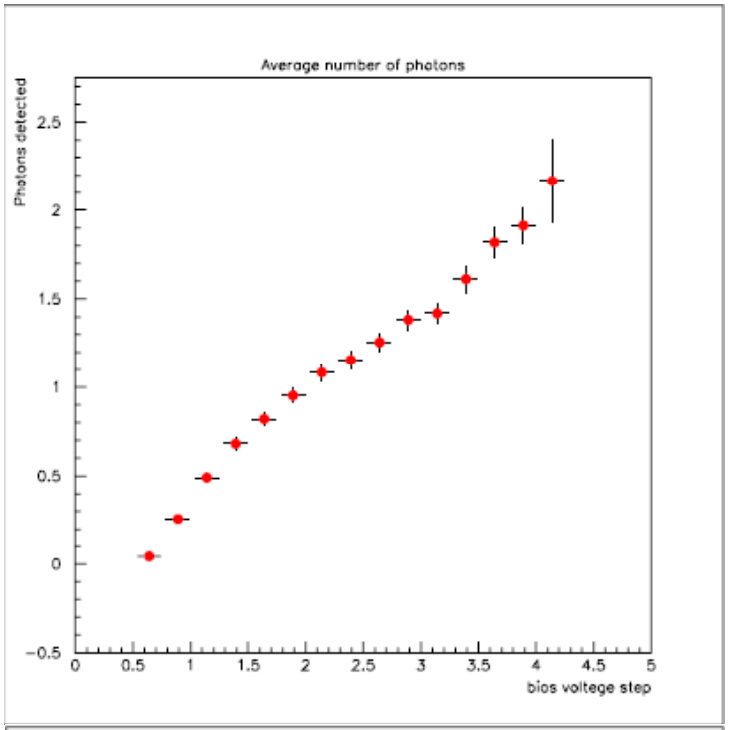
Average number of photons Temperature=



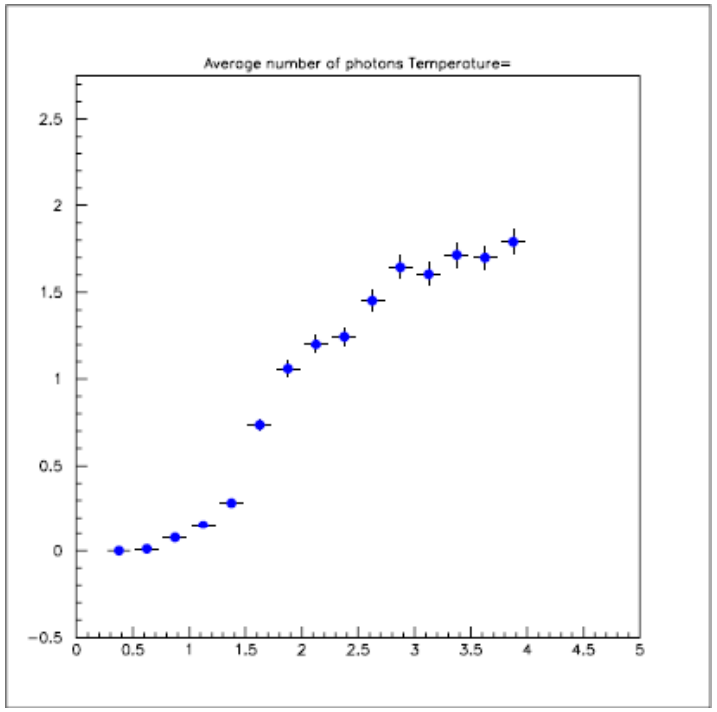
Average number of photons
Photons detected
bias voltege step



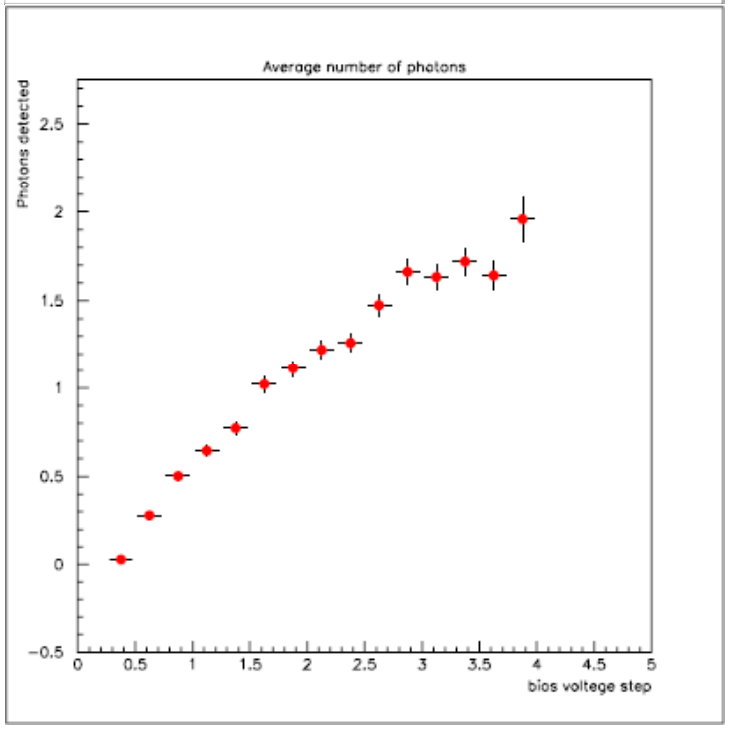
Average number of photons Temperature=



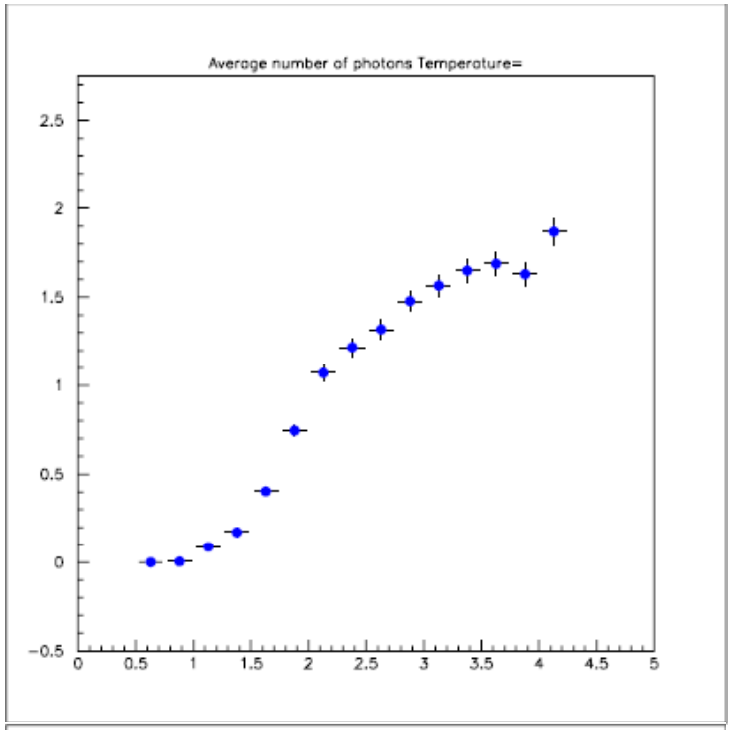
Average number of photons
Photons detected
bias voltege step



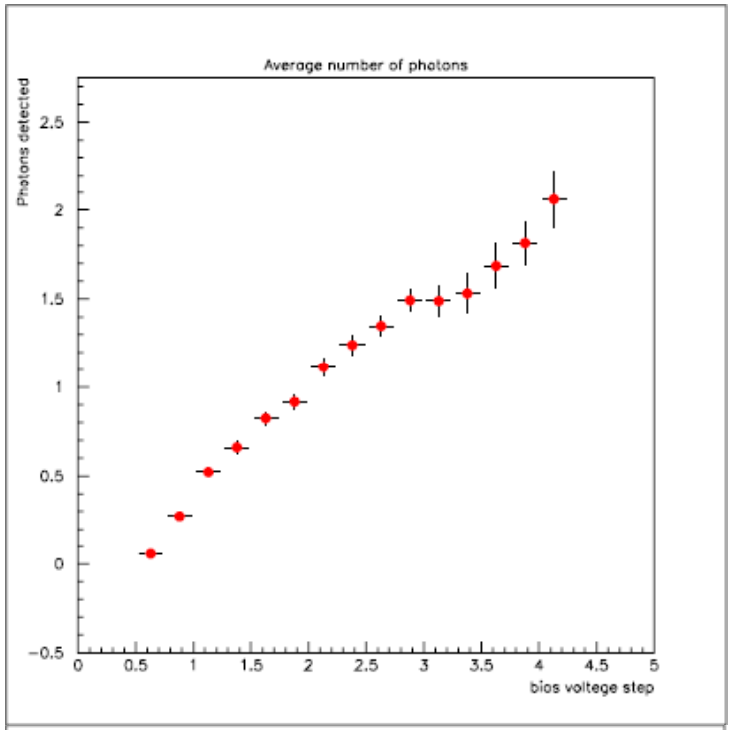
Average number of photons Temperature=



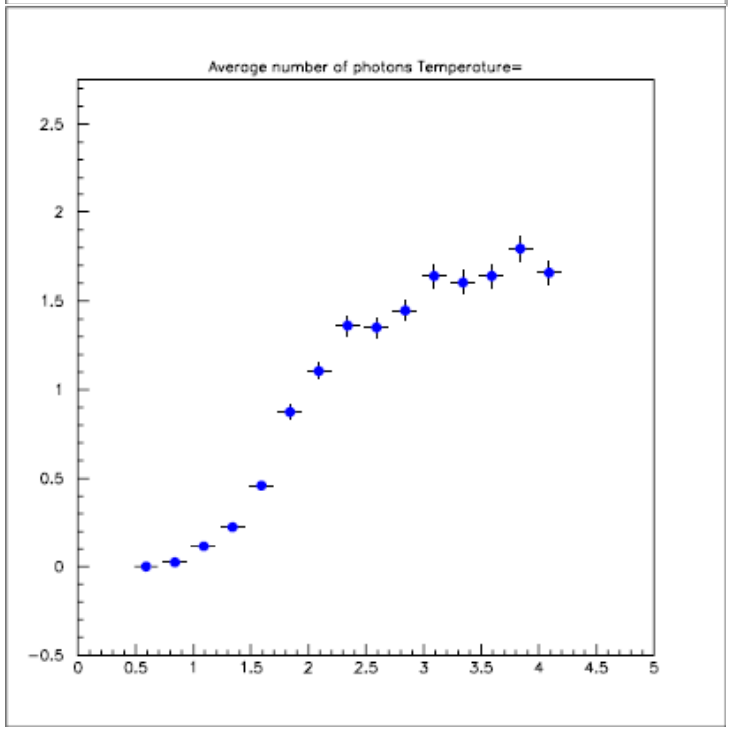
Average number of photons
Photons detected
bias voltege step



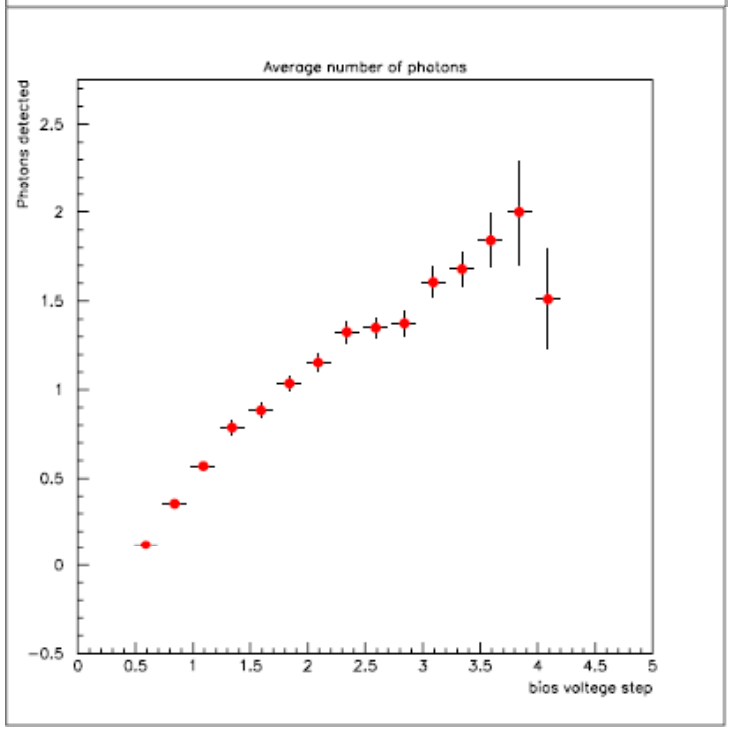
Average number of photons Temperature=



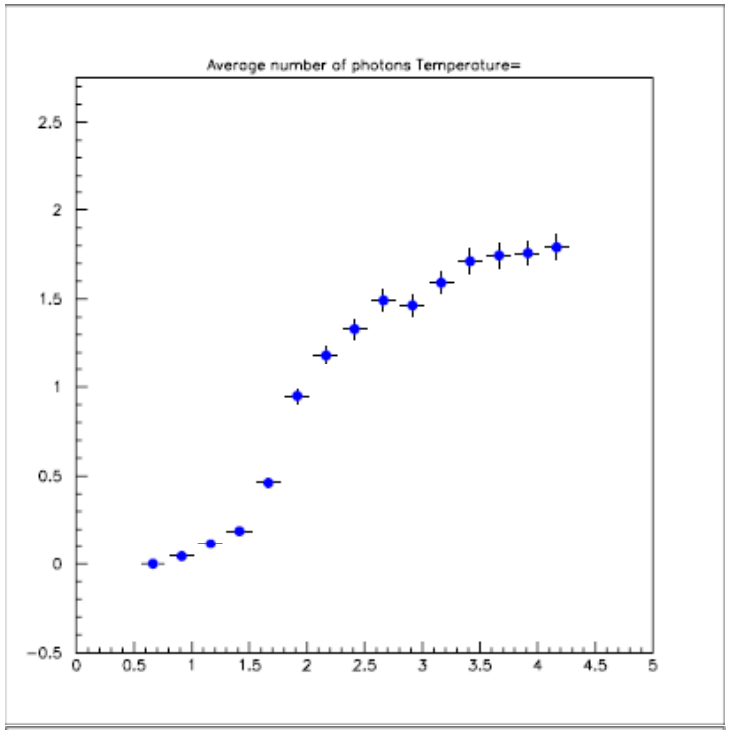
Average number of photons
Photons detected
bias voltege step



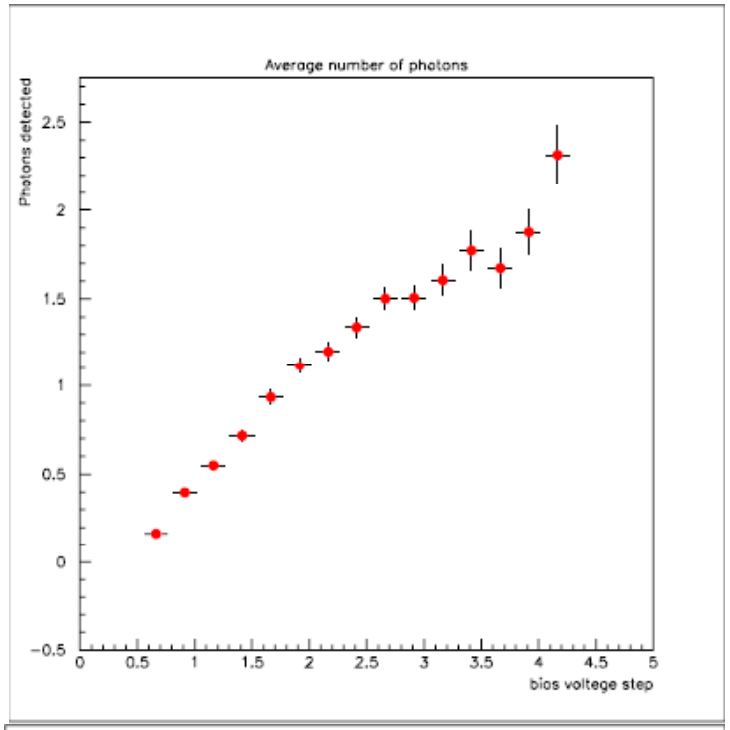
Average number of photons Temperature=



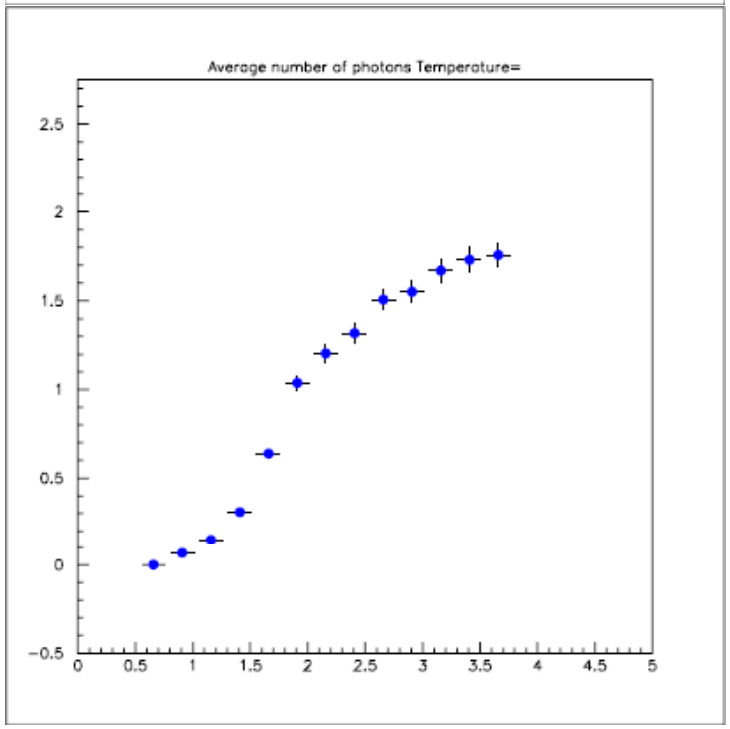
Average number of photons
Photons detected
bias voltege step



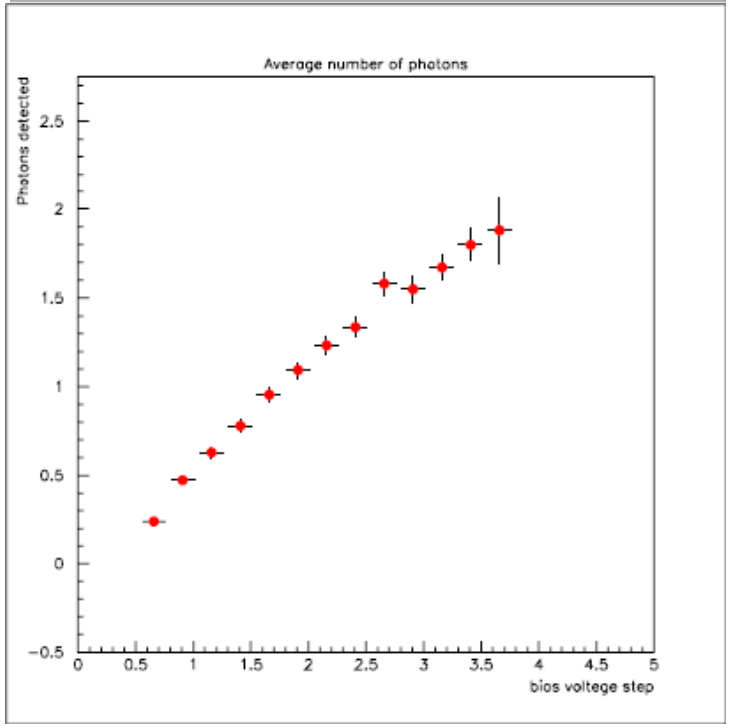
Average number of photons Temperature=



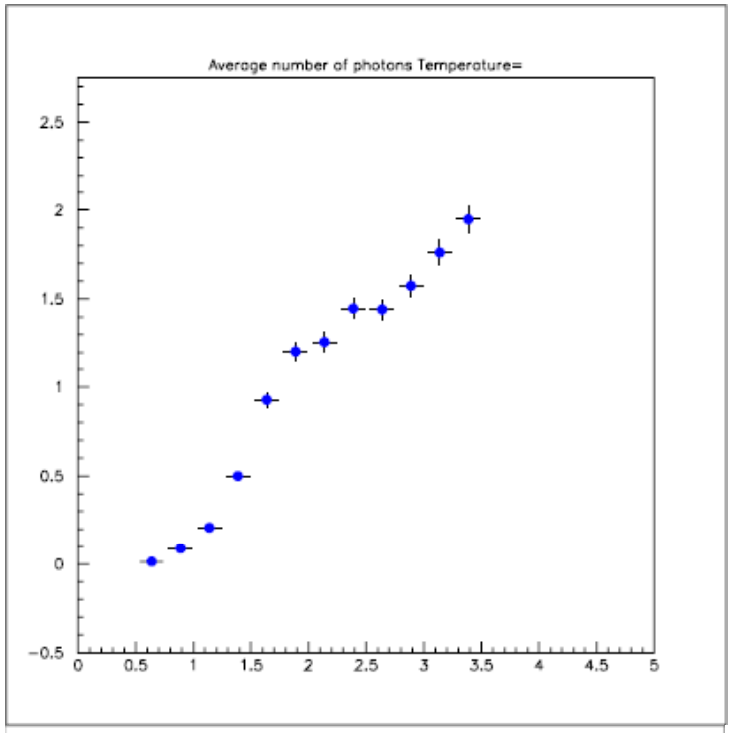
Average number of photons
Photons detected
bias voltege step



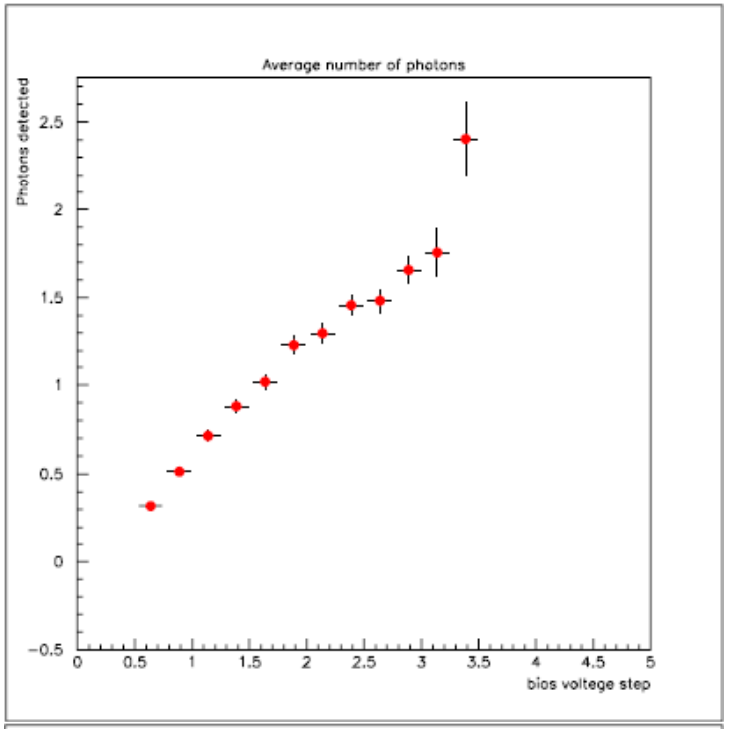
Average number of photons Temperature=



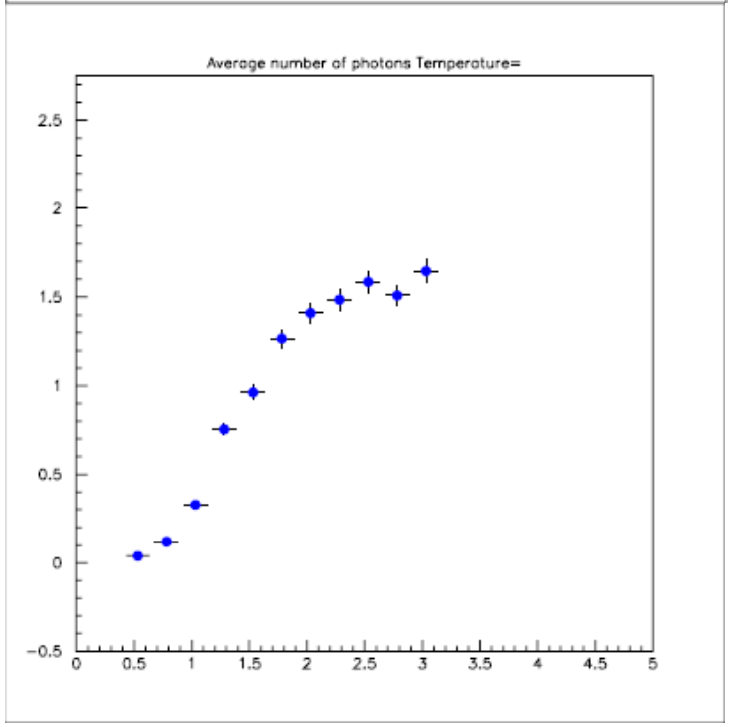
Average number of photons
Photons detected
bias voltege step



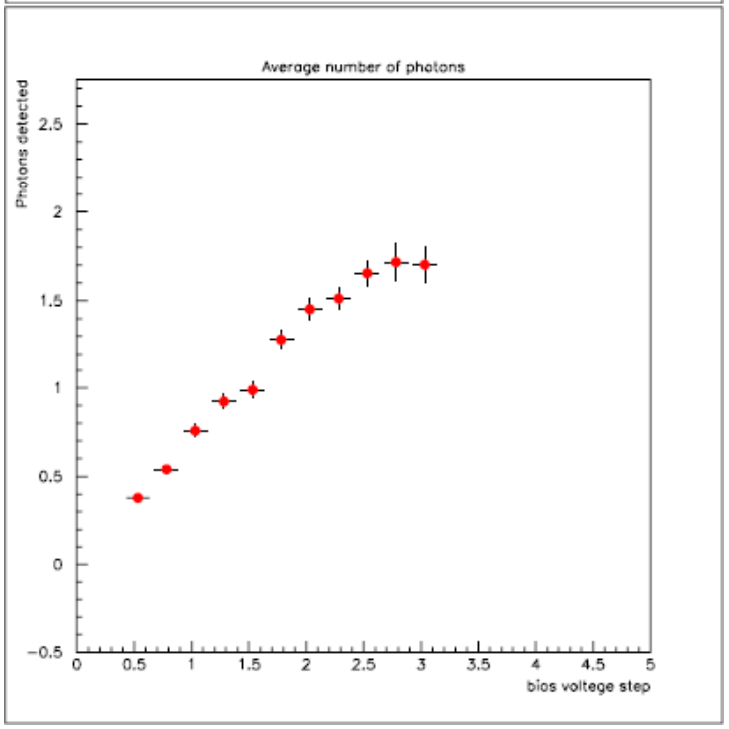
Average number of photons Temperature=



Average number of photons
Photons detected
bias voltege step



Average number of photons Temperature=



Average number of photons
Photons detected
bias voltege step
